Artist Biography

Adele is originally from Johannesburg, South Africa, but has called the United States home for the past 38 years. Moving to the Netherlands in 2000, she immersed herself in the art world under the teaching of a renowned Dutch artist. Upon returning to the States, Adele pursued her artistic interests further, participating in classes from instructors across Houston, North Carolina, and California.

In North Carolina, she became an integral part of the Artists League of the Sandhills, dedicating three years to leading the education committee. Her commitment to the arts community saw her ascend to the role of league president after serving on the Board for a year.

Adele's philanthropic spirit shines through her co-founding of A Stroke of Patriotism, a non-profit endeavor that bridges the gap between the art community and veteran organizations, offering support to veterans.

From 2017 to 2022, she nurtured young artistic talents as the owner of a children's art studio. Adele's versatility spans all mediums, yet her passion truly ignites when wielding pencils and oils. Her artistic focus often gravitates towards capturing the essence of wild animals, horses, and dogs.
